The picturesque Sint Salvador Capelle (St. Salvador Chapel) is in the Town of Baarle-Nassau. It is in the Province of Brabant, 5 KM from the Belgian border. Numerous enclaves in this Town are Belgium territory and they are called Baarle-Hertog. More details on this Town and its very complicated, messy border issue on pages 24 & 25.

Beste Medelanders,

With our 50th Anniversary party just around the corner, it has been a very busy time for all of us.

I would like to take this opportunity to thank Henri for his relentless efforts in organising this Anniversary party.

I do hope that we can welcome many (former) Members and/or their families.

While I write about events, do not forget to attend our Christmas Lunch mid-November. The Menu looks very good.

As the end of the year is closing in quickly, we are already planning our events for 2020. Looks like we are going to be busy once again.

Many thanks to Machiel and Henk, our events coordinators.

Next year we will be alternating our Maas & Waal Borrels between the RDC and the Windmills in Morley.

It will be held on the even months at the Windmills in Morley and on the uneven months it will be held at the RDC in Myaree.

Following discussion with Machiel about the Juniors' Club, I am very excited for the new ideas and events Machiel has planned for next year. Keep an eye on our calendar, so that you don't miss out.

Last but not least, in this magazine we have added the 2020 Membership form.

It would be very much appreciated, if you get your Membership Payments to us not later than early next year.

**Eric
President.**

TELETHON 2019 CAMPAIGN

As the Organiser of this Campaign, on behalf of the Committee and myself, I would like to thank you all for so greatly supporting this Telethon Campaign throughout this year.

Over the last month you were able to increase our final total from \$2210.20 to a final figure of \$2503.85

And now the surprise announcement:

**Your Neerlandia Dutch Club has decided to match it:
\$DOLLAR FOR DOLLAR !!
Making the total donation from Neerlandia an impressive \$5006.85**

As parents, my wife Riet and I are ever so fortunate that we never had any major health problems with our own 8 boys and our 10 grandchildren. Yet, watching some of the heart wrenching reports of what some parents go through with theirs, it makes it easy for us to support an organisation like Telethon, in order to provide the funds to find cures for the sick children in WA.

Are you also one of the lucky parents?

When you read this, we will have started the 2020 Telethon Campaign.

***Please support us again in 2020.
Thank you.***

Event Co-ordinator. (Life Member.)***

Ditjes and Datjes about our Youngsters

Report on our Ice Skating Event.

Following is a report on our recent Ice Skating Event.

This Event is always a lot of fun, because with the Ice Skating we also get Pea Soup and a Hot Chocolate.

As we live in a warm climate here in Perth, there is no opportunity to learn Ice skating outdoors. Fortunately, there are several centres, where one can learn this sport indoors.

And hopefully with a bit of good fortune, one could some day experience Ice Skating on natural ice in the Netherlands.

It's also great to hang out with our friends of the Neerlandia Club, get to know them better and have some fun.

Daniel.

Juniors' Club.

Please join us for a fun afternoon with 1 hour of pistol shooting training for the whole family.

The training will be provided by the Pistol Club of the Rhein Donau Club.

The deadline to sign-up is 2nd of November.

Neerlandia Electronics and Software Club.

On Sunday 22nd September, the Neerlandia Electronics and Software Club met at the Rhein Donau Club. Even though there were not a lot of people there, the whole group had a fantastic time experimenting with Mini Computers, Sparki Robots and the 3D Printer.

We all had a turn on the computer donated by Arnold Giltay to programme the Sparki Robots.

We also did experiments, whereby we programmed the robots, marked where the Robot started, then watched if the robot ended up in the same position.

The 3D Printer in our electronics club is up and running, even though it still needs a bit of tweaking.

We are testing it by trying to print a physical Bitcoin.

I am looking forward to the upcoming Electronics and Software Club

Meeting in October and you should be interested in it as well!

Stuff Dutch People Like

“Stuff Dutch People Like” is a column written by an Expatriate living in the Netherlands.

This amusing column observes the Dutch in their everyday life. We hope that you enjoy reading “Stuff Dutch People Like” as much as we do. The blog is available via the internet.

Stroopwafels.

You can't visit/live in The Netherlands for long without stumbling across the famous stroopwafel.

It sounds fairly medieval, but in reality, it is a modern day tasty treat. Stroopwafels are made from two very thin layers of baked batter with a caramel-like filling (stroop) in the middle. Stroll through any busy Dutch market, and you will smell the delicious confections, long before you actually see them being made.

Ever notice how a Dutch person places their stroopwafel so that it sits perfectly balanced on their coffee mug? This is the traditional way to eat one, so that the rising steam from the hot beverage warms the waffle and slightly softens the inside, making it all yummy melty on one side and crispy on the other.

Stroopwafels, are said to have originated in the late 18th century in the Town of Gouda, made famous for its cheese. Be careful though, as they are highly addictive. Take that first bite, at your own risk.

Beware of the pre-packaged types of Stroopwafels found at grocery or tourist stores. They may have sat on the shelves for months. If you enjoy the taste of sweetened cardboard, and are not worried about losing any teeth, then plunge right in! Otherwise, head to your nearest local market to find the real deal!

Book Launch at the November Maas & Waal, RDC

Are you interested??

“The Western Australian author Louise Allan has recently published her debut novel: “The Sisters’ Song”.

This great story was translated into another language. Can you guess which other language? Indeed, Dutch!

During the Maas and Waal Borrel on November 29, the Neerlandia Club will give Louise a chance to talk a bit more about her book and sign her book for you between 7pm and 8pm.

If you are interested to obtain the Dutch translation of her book, you can pre-order it via the following link.

<https://tinyurl.com/y3nxmlmam>

The deadline to pre-order the Dutch book online is Tuesday, October 5th.

THE SISTERS’ SONG by Louise Allan

Set in rural Tasmania from the 1920s to the 1990s, *The Sisters’ Song* traces the lives of two very different sisters, one for whom giving and loving are her most natural qualities and the other who cannot forgive and forget.

As children, Ida loves looking after her younger sister, Nora, but when their beloved father dies in 1926, everything changes. The two young girls move in with their grandmother who is particularly encouraging of Nora's musical talent. Nora eventually follows her dream of a brilliant musical career, while Ida takes a job as a nanny and their lives become quite separate.

The two sisters are reunited when Nora's life takes an unwelcome direction and she finds herself, embittered and resentful, isolated in the Tasmanian bush with a husband and children.

Ida longs passionately for a family and when she marries Len, a reliable and good man, she hopes that she soon would become a mother. Over time, it becomes clear that this is never likely to happen. In Ida's eyes, it seems that Nora possesses everything in life that could possibly matter, yet she values none of it.

Spanning seventy years, the strengths and flaws of motherhood are revealed through the mercurial relationship of these two very different sisters. *The Sisters’ Song* speaks of dreams, children and family, all entwined with a musical thread that binds them together.

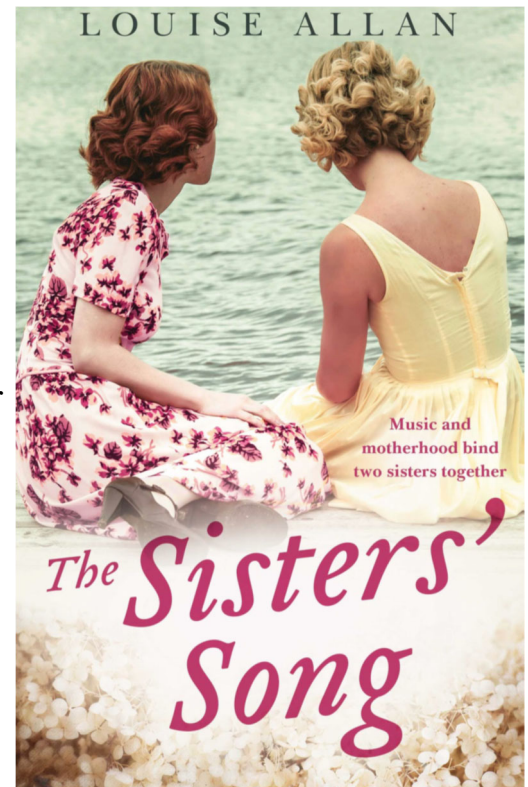

‘This debut novel from a gentle and perceptive new voice in Australian fiction is deeply evocative of a bygone era ... This is a story we live through on every page which underlines the painful reality of history repeating itself through generations but delivers a powerful and cathartic final message.’
The Australian Women’s Weekly.

LOUISE ALLAN is a début author from Western Australia.

Louise won the 2018 Tina Kane Emergent Writer Award at the Mildura Writers Festival. This manuscript was also awarded a Varuna residential fellowship in 2014 and shortlisted for the City of Fremantle-TAG Hungerford Award.

Louise grew up in Tasmania but has since moved to Perth where she lives with her husband, four children and two dogs. She is a former doctor and has a passion for music.

September Maas & Waal Borrel at the RDC

September Maas & Waal Borrel at the RDC.

About 70 + people attended this function. The Kid's breaking up for the school holidays and the start of the Royal Show would have, no doubt, stopped some from attending. However, those that did come, had a very good time, as the "Open Mic" entertainment was provided by the very enthusiastic group: "Space to Sing". They even brought along their own Ballerina, a little blond girl, that did not stop twirling around all evening.

Those present showed their appreciation by joining in and singing along with many of the popular golden oldies by ABBA and others.

Popular artists.
A Great evening.

The Neerlandia Seniors' Club

Welcome to the Neerlandia Seniors' Club page.

Again, as you can see below, both Seniors' days were also birthday cake days. On the 26th of September it was Louis James; and on the 10th of October, Freda Hovingh and Rita Spence combined to supply the cakes to go with the coffee **in orange cups!!**

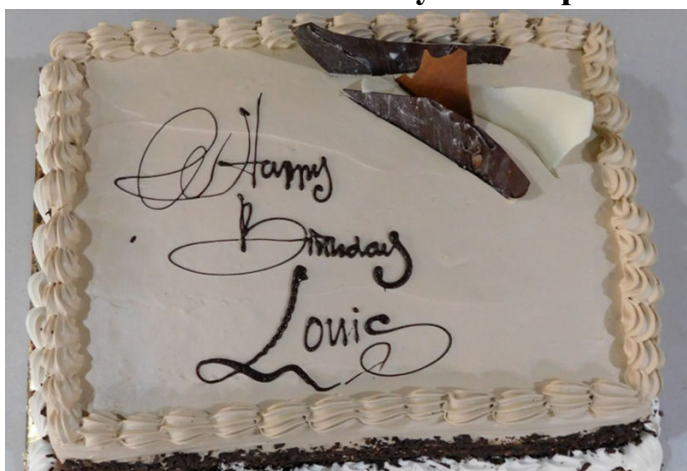

At the AGM on Sunday 15th of September, a request was put forward to change our name, "the Neerlandia Seniors' Club", back to what it used to be: "De Jeugd van Vroeger".

I promised to put it to a vote and we did that on the 26th of September, with only 3 favouring the old name and the majority voting for our present name. Case closed.

It is sad to see that long time Member, Brigitta Weel is in hospital with a stroke. From all of us we wish her a speedy recovery.

With so many elderly Neerlandia Members, we should have more at the SENIORS day!

52 Members on Thursday 26th September. 42 Members on Thursday 10th October.

Neerlandia's Old Clubhouse in Wembley

230 Cambridge Street, Wembley as it is now.

When Neerlandia moved from its premises in Wembley to the Rhein Donau Club in Myaree in February 2016, no-one knew what the future of the block and the building would be.

Like most buildings in the area, we expected that the property would either be redeveloped into a block of flats or into a medical suite. However, the new buyer advised us that the building would stay. The interior would undergo a refurbishment and the building would be renovated according to modern standards and health & safety requirements. We were also advised that the building would eventually be opened as a Sikh Cultural Centre and a Party Centre/Catering Business with an adjacent Indian Restaurant.

The renovation took more than a year and I followed the development with great interest.

24/7 builders, trucks and inspectors were on-site; I was lucky enough to be allowed in every now and again to admire the progress that was made.

And then, one fine day, Indian Restaurant & Party Centre Fusion6 opened its doors to the public.

Obviously, I was very excited to see the result of the work that had gone on and soon enough Barrie and I booked a table in the restaurant. When we entered the restaurant, which is situated in Neerlandia's former Pieter Leeftang Lounge, we walked into a different world: the bar had been relocated to the side wall, the interior was light and bright and oozed an elegant, inviting atmosphere.

Soon enough we were offered a tour through the building and we were absolutely gob-smacked about the transformation our former clubhouse had undergone. The hall was as it used to be, yet renovated and refurbished to the tens. The stage, where now many a Bollywood themed show is enjoyed, was still there and a huge glistering disco ball hang over the dance floor, in front of the stage.

From the balcony, where the Cura offices used to be, we had a bird eye's view over the main bar area and all the colourful round tables that filled the hall. The balcony itself can now be used as a private area, where leather, comfortable black sofas are standing out against glass and chrome. The glass panes allow those patrons sitting upstairs to have a prime view of the activities happening below.

The kitchen, we saw, had the same lay-out as before, but again, updated and more cool rooms to cater for patrons, who come to party or dine in/take away. The restaurant is fully licensed.

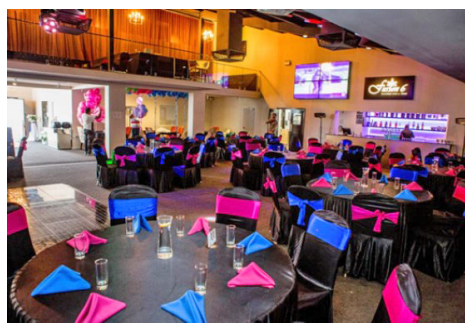

After our first visit, Fusion6 became our local and many times we have introduced friends and family to this culinary gem. And every time when we leave the restaurant after yet another pleasant time spent in this eatery, I realise that I should tell Neerlandia members what happened to our former clubhouse.

I find it very satisfying to know that the building at 230 Cambridge Street, Wembley is now a cultural centre for Sikhs living in Perth where it once served as the cultural centre for Dutch living here.

If you are interested to have a meal and a look around at the building and its interior, the restaurant is open 7 days a week from 5pm onwards. The friendly staff, providing the restaurant is not too busy, are happy to show you the improvements made since the building changed ownership. The food is reasonably priced and sumptuous.

For more information you can visit the website: <http://fusion6.com.au/>

The Dutch Community Radio

DUTCH Community Radio

**BROADCASTING IN THE DUTCH LANGUAGE
SUNDAY FROM 2:00 TO 3:30PM, 6EBA WORLD
RADIO, 95.3FM.**

MISSION:
**ENABLE THE DUTCH COMMUNITY TO REMAIN
CONNECTED WITH THEIR CULTURAL
HERITAGE.**

Welcome to the Dutch Community Radio (DCR) page.
The DCR is completely run by volunteers and from time to time people are leaving us. But luckily new volunteers are stepping in to fill the gaps. We thought it might be time to introduce our current team of panel operators and presenters.

MEET THE TEAM:

I started with the DCR as the treasurer in 1983. Some seven years later I found myself in the studio as the technician and I am still doing the same. Needless to say I have seen many changes. In the early years programs were sent to us on tapes, reel to reel with news; and cassettes which contained the music. These days we use CDs and USBs to get the music and sponsored advertisements to the studio. **Bob.**

I never thought after all these years being part of DCR, I would take on the role of President, or main coordinator, as I like to call it. I definitely don't see myself as the big T. I enjoy being part of the DCR and bring music to our listeners and yes, I was a DJ at one stage. Many times during my teenage years, I was asked to put my sound system on at many parties and of course played the hits from our home country. As to the future, I do hope we can be part of our listeners' lives for many years to come. **Peter.**

I started as a presenter for DCR just after I arrived in Australia in 2010. The music was not really my style at that moment. But with a newly formed team, we changed the music style drastically. A new program format, that is more up to date for the listeners, although I am always wondering, who is actually listening... We have a lot of fun with presenting the radio shows and I do wish we can keep it going in the future. **Freek.**

8 years ago Harry Crijns asked me to fill in as a presenter. To be very honest, I did not like speaking in the microphone. Up to then my radio experience was as a button monkey at the hospital radio. In particular those long editions of the news we had to read, were a struggle. My 'Haags' civil servant's voice made me sound like our Princess Beatrix, who was our Queen then. But things changed, the programs were brought in line with today and now I love being in the studio, it is so much fun. **Karin.**

Hello, I am Manuel. Time flies and I have been with the DCR for more than 4 years. We always have fun in the studio and I like to crack a joke, if possible, just before one of the other announcers has to go on air. I think it is important that the broadcasts are spontaneous and relaxed. Every so often I will produce the whole program. That means selecting the music, the theme of the show and finding interesting facts to keep the listeners entertained. **Manuel.**

The Dutch Community Radio

Sinds 2015 ben ik met pensioen na 41 jaar heerlijk gewerkt te hebben in het onderwijs. Gelukkig kwam ik toen voor het eerst Karin tegen, die me tijdens het Koningsfeest luchtig vroeg of ik mee wilde helpen met de DCR. Het werd dus duidelijk dat me dat heel leuk leek en dat is het ook. Presenteren en interviews afnemen zijn de dingen waar ik veel plezier aan beleef. Ons team is vrolijk en positief. We kijken altijd uit naar onze anderhalf uur op de zondagen. Kom een keer kijken, misschien is het ook iets voor jou! 🇳🇱 **Wilna Cornelisse.**

It's already a year ago that I joined DCR as a volunteer presenter of the weekly programs. I had no experience whatsoever with presenting on air, but it turned out not to be necessary at all! At the DCR we have a very nice and enthusiastic team of volunteers, who all go for it, in the foreground and in the equally important background. What makes it so much fun is that, due to the choice of music and the information we provide about it, we are for a while really connected to our Dutch roots. And then it doesn't matter at all whether you were born here, in the Netherlands or somewhere else. It is a joy every Sunday to present the program or to listen to the program. **Maarten.**

Absolutely love being part of 6EBA, the DCR. Little by little you begin to form a relationship with the community, a listening audience who are looking forward to your show. I really enjoy hearing other presenters on air, each with their distinct personality, their style of music & show, and experience their radio charisma. It is wonderful to be surrounded with people who share the same love and passion of music as I do. And ultimately, what being a radio presenter is all about; to have a positive impact on somebody's day. **Werner.**

I came to the studio for an interview about my work as an oceanographer and the seagrass rehabilitation. And that was it, I was completely hooked on the DCR programs. The team is great, the programs are fun and it feels good to be in the studio to present the broadcasts. When we have a suggestion for a song or a topic we feel might be interesting, we are listened to. We work as a team and it is fantastic to be part of it. **Jennifer.**

In this magazine you will find a DCR membership form with a survey on the other side. This survey is very important for us as we like to know what genre of music you like and which connection you have with the Netherlands. Understanding our listeners helps to make the best possible programs for you. So please, complete the survey and return it to us. Our postal address is mentioned at the bottom of this page. Or you can complete the survey via our website, it saves you a stamp. Of course we will be very grateful when you become a member of the DCR that will help to keep us on air.

Until early this year we had Podcasts on SoundCloud which were very popular. But due to legal circumstances we had to stop those. The good news is we still record each program, so if you missed the broadcast and really want to listen back (for private use only), you can send an email to info@dutchradio.com.au and we will send you an invitation to our Dropbox. Let's hope 6EBA will bring in a 'Listen Back' feature in the near future

Well that is the news from the DCR for now. You can contact the DCR via the Facebook page, via email info@dutchradio.com.au, or drop a line to Dutch Community Radio, 5 Elimatta Way, City Beach WA 6015

May the music be with you and enjoy the day. **Karin.**

Opa's zijn slim.

Ik liep in het park te wandelen met mijn kleindochter.

Zij pakte iets van de grond en wilde

het in haar mond stoppen. Ik nam het haar af en vertelde haar dat niet meer te doen.

"Waarom?" vroeg ze.

"Omdat het op de grond gelegen heeft, je weet niet waar het overal geweest is, het is vuil en waarschijnlijk kleven er bacteriën aan. Bacteriën maken kleine meisjes ziek en zorgen ervoor dat ze zich niet goed voelen," was mijn antwoord.

Nu keek mijn kleindochter mij in volle bewondering aan en vroeg: "Opa, hoezo weet jij al die dingen?? Je bent zo slim." Ik antwoordde snel en zei: "Alle Opa's weten dat. Het hoort bij het Opa examen. Daar moet je voor slagen anders kun je geen Opa worden."

We wandelden enkele minuten in stilte door, ze was duidelijk die informatie aan het verwerken.

"Oh.... Ik begrijp het nu," riep ze spontaan.

"Als je dat examen niet haalt, moet je Oma worden."

"Precies," zei ik glunderend.

Als je uitgelachen bent, stuur deze e-mail dan naar een andere Opa.

De Ooievaar.

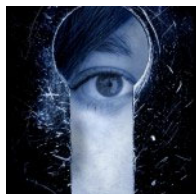

"Waarom zou Noah van iedere diersoort twee exemplaren in zijn Ark hebben meegenome," vraagt de onderwijzer aan zijn klas."

Pietje is de enige die zijn vinger opsteekt: "Ik denk dat dat kwam omdat hij niet meer in de ooievaar geloofde."

Het dienstmeisje.

De familie Jansen hebben een diensmeisje in huis.

Op zekere dag ziet mevrouw Jansen dat haar 10 jaar oud zoontje, door het sleutelgat van haar kamer staat te kijken.

Zegt ze met een glimlach: "Ben je zo heel erg benieuwd wat ze aan het doen is?"

"Helemaal niet," zegt haar zoontje heel erg verontwaardigd: "Ik wilde alleen maar weten wat Pappa aan het doen is."

De Zwembroek.

Joost gaat met zijn vrouw en kinderen op vakantie naar een badplaats en zij hebben een hele mooie hotelkamer.

's Morgens natuurlijk naar het strand om te zwemmen, maar Joost komt er achter dat hij zijn zwembroek thuis heeft gelaten.

Maar Joost is vindingrijk genoeg om daar een oplossing voor te vinden.

Hij pakt het slabbertje van zijn jongste zoontje en bedekt daarmee het noodzakelijke toe.

Als ze na een tijdje uit het water komen en naar het hotel lopen, vraagt hij zich af waarom iedereen hem met grote ogen aan staart of in de lach schiet.

Dan kijkt hij naar beneden en op zijn slabbertje leest hij: "Moeders allerliefste."

Het kantoormeisje.

Trijntje bloost to achter haar oren als de

directeur tegen haar zegt: "Je bent het knapste meisje van het hele kantoor. En je kleeft je altijd zo smaaakvol. Die strakke bloesjes van je laten je figuurtje tot

volle rechten uitkomen en die korte rokjes die je altijd draagt, geven ons volop de gelegenheid van je prachtige benen te genieten. Daar komt dan nog bij, dat je altijd zo'n stralende glimlach hebt."

"Oh, dank u wel, mijnheer," fluisterd Trijntje verlegen.

"Ik ben erg blij dat je mijn complimenten waardeert," gaat de Directeur verder.

"Nu hoop ik dat je wijs genoeg bent om ook de rest aan te rectificeren. Ik wou het nu ook nog even hebben over je tijpen en over het op tijd komen 's Morgens."

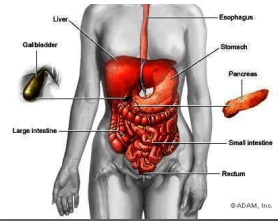

The interesting Human Body

The Human Body, interesting facts.

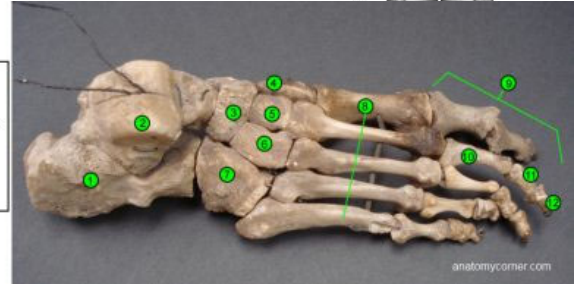

(The following interesting information was copied from the internet. We cannot vouch for the correctness of the information, but it makes interesting reading. Editor)

The Human Body is a treasure trove of mysteries, one that still confounds doctors and scientists about the details of its working. It's not an overstatement to say that every part of your body is a miracle. Here are fifty facts about your body, some of which will leave you stunned.

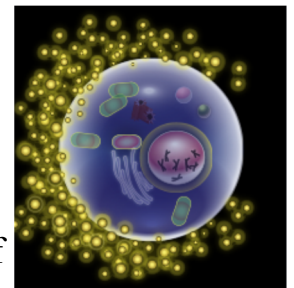

- # Human feet have 52 bones, accounting for one quarter of all the human body's bones.
- # It's possible for your body to survive without a surprisingly large fraction of its internal organs. Even if you lose your stomach, your spleen, 75% of your liver, 80% of your intestines, one kidney, one lung, and virtually every organ from your pelvic and groin area, you wouldn't be very healthy, but you would live.

1. Calcaneus
2. Talus
3. Navicular
4. Medial Cuneiform
5. Intermediate Cuneiform
6. Lateral Cuneiform
7. Metatarsals
9. Phalanges
10. Proximal Phalanx
11. Middle Phalanx
12. Distal Phalanx

- # During your lifetime, you will produce enough saliva to fill two swimming pools. Actually, Saliva is more important than you realize. If your saliva cannot dissolve something, you cannot taste it.

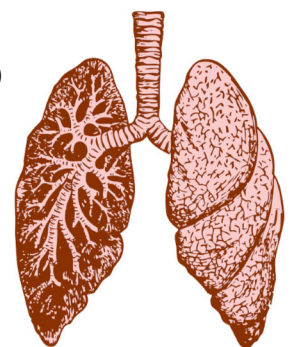

- # The largest cell in the human body is the female egg and the smallest is the male sperm. The egg is actually the only cell in the body that is visible by the naked eye.

- # The strongest muscle in the human body is the tongue and the hardest bone is the jawbone.
- # Feet have 500,000 sweat glands and can produce more than a pint of sweat a day.

- # The acid in your stomach is strong enough to dissolve razor blades. The reason it doesn't eat away at your stomach is that the cells of your stomach wall renew themselves so frequently that you get a new stomach lining every three to four days.

- # The human lungs contain approximately 2,400 kilometres (1,500 mi) of airways and 300 to 500 million hollow cavities, having a total surface area of about 70 square meters, roughly the same area as one side of a tennis court. Furthermore, if all of the capillaries that surround the lung cavities were unwound and laid end to end, they would extend for about 992 kilometres. Also, your left lung is smaller than your right lung to make room for your heart.

- # Sneezes regularly exceed 100 mph, while coughs clock in at about 60 mph.

- # Your body gives off enough heat in 30 minutes to bring half a gallon of water to a boil.

- # Your body has enough iron in it to make a nail 3 inches long.

- # Earwax production is necessary for good ear health. It protects the delicate inner ear from bacteria, fungus, dirt and even insects. It also cleans and lubricates the ear canal.

- # Everyone has a unique smell, except for identical twins, who smell the same.

May a little bit of Humour light up your Day

Little Johnny strikes again.

The teacher asked the class to use the word *fascinate* in a sentence.

Molly put up her hand and said: "My family went to my granddad's farm, and we all saw his pet sheep. It was *fascinating*." The teacher said: "That was good, but I wanted you to use the word *fascinate*, not *fascinating*."

Sally raised her hand. She said: "My family went to see "Mama Mia" and I was *fascinated*." The teacher said: "Well, that was good Sally, but I wanted you to use the word *fascinate*."

Little Johnny raised his hand. The teacher hesitated, because she had been burned by Little Johnny with his weird explanations before.

She finally decided there was no way he could damage the word *fascinate*, so she called on him.

Johnny said: "My aunt Gina has a sweater with ten buttons, but her breast were so large she could only *fasten eight*." The teacher burst into tears.

Baarle-Nassau, the world's messiest, complex Border

The Flag and Coat of Arms of Baarle Nassau.

Dutch Town Baarle-Nassau has 22 miniature Belgian Enclaves, within which are seven further exclaves, which belong to the Netherlands.

The result is the world's messiest border. This bizarre arrangement can be traced back to an 1198 agreement in which the Duke of Breda (later Nassau) was given the Village of Baarle, but did not receive the surrounding farmland, which was jealously guarded by the Hertog (Duke) of Brabant for its valuable agricultural tax revenues.

The present border arrangements were established as part of the Treaty of Maastricht in 1843!!

It proved to be impossible to come to a better agreement. In place of a fixed border, each of the 5732 parcels of land had their nationality laid down separately.

The Belgian enclaves in Baarle Nassau (called Baarle Hertog) are actually 5 KM from Belgium.

Problems or opportunities?

Living in a Town with 50 or so enclaves, such as Baarle-Nassau/Baarle Hertog, brings its own problems, but also unique opportunities.

Each house is deemed to pay taxes to the country, **where its front door is located**, and it is an old tradition in Baarle to move the front door some meters if that is profitable, such as paying less tax, especially for shops. This is part of making the best out of a strange situation.

In 1995 a remeasurement of all the borders of enclaves according to modern exact standards was completed.

This gave rise to some big problems. In at least one case a house would have to move from Belgium to the Netherlands. The inhabitants did not want that to happen, but the solution was simple; they moved the front door of their house.

One formerly Dutch meadow (with one cow grazing on it) was "moved" in 1995 from the Netherlands to Belgium, as it was recognised that it was a Belgian parcel of land.

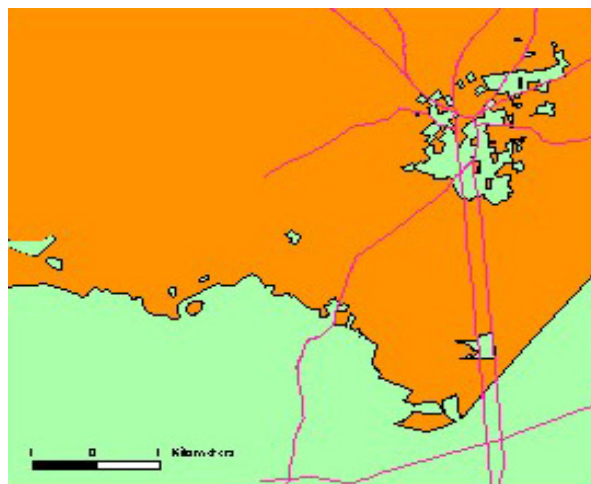

Baarle Nassau & Baarle Hertog attract a lot of tourists.

- # **For many years the shops in Belgium are open on Sundays, those in the Netherlands are not.**
- # Tax rates in Belgium and The Netherlands were and are quite a lot different, so one could go shopping between two tax-regimes in one single street.

Baarle-Nassau is a Municipality and Town in the Southern Netherlands, located in Province of North Brabant. It had a population of only 6,803 in 2017, but it is a tourist attraction because of its messy, complex border with Belgium.

The Border:

It is a crazy, geopolitical jigsaw, Dutch Baarle-Nassau and Belgian Baarle-Hertog together form what appears to be one intermeshed Town. Legally, however, the

All the green areas are Belgium territory and the orange areas are the Netherlands. The Town of Baarle Nassau is where the red lines intercept, appr. 5 KM from the Belgian border.

The green areas in Baarle Nassau are Begian and called Baarle Hertog.

Front door had to be changed, right or left?.

Border Games.

Borders throughout the Town.

Baarle-Nassau, the world's messiest, complex Border

On a sunny day the Terraces are packed as tourists and locals enjoy the sunshine and “Gezelligheid”.

- # And don't forget the Belgian chocolate, you could not find that quality in The Netherlands.
- # With the coming of the European Union some of those differences disappeared.
- # To make the enclaves visible for the visitor, the little plates with the house numbers are made to look different; ovals with the Belgian colours and rectangles with Dutch colours.
- # When you post a letter from Hertog to Nassau, the letter goes by post from Hertog over Turnhout to Brussels and then by air to Amsterdam, and for the last part of the journey over Tilburg to Nassau. But if you use the letterbox in the next street, the letter doesn't leave Baarle at all!
- # In a Dutch Cafés the minimum age to consume alcohol is 18 years, while across the road in a Belgium Café it is 16 years.

For the understanding of the good relationships between the people of both Baarles' it is important to know that up to 1860 there was only one Catholic parish. Only then did the Bishop of Breda find it unacceptable that some of "his" souls would go to a church in a "foreign" country! So he created a separate parish for Baarle-Nassau. However, that has all been sorted out over time.

Different liquor laws.

Another important relation between both communities was the common use of the heathlands in the middle ages, as is documented since 1479. In the medieval agricultural system on the sandy soils of this region, the extensive use of the heather played an important role. The common use parish and heather made Baarle a single Community.

Even now some people think the situation in Baarle is something to regret. The inhabitants of Baarle think otherwise. They do not want to lose their special ambiance and they want to keep Baarle as it is now.

Baarle-Nassau and Baarle -Hertog, is historically, geographically and politically a very peculiar Town and tourists not only flock to the Town, they cannot get enough of it. The come from everywhere, not only from Europe, but from the whole world.
